YOU ARE CORDIALLY INVITED to visit our Gardens where over 600 varieties of named Iris are growing. Our peak bloom is usually during the second week of May.

We will be happy to assist you in making your selection, or to answer any questions. Please feel free to write us.

Our Iris are replanted each year—assuring you of healthy, husky rhizomes from one year plants.

We wish to take this opportunity to thank you for your orders which have helped our "Garden to Grow!" We hope your garden will display great beauty this season, and that each new variety will meet with your expectations—

Dear Friends:

At this time we are introducing three Iris for the hybridizer, Mr. Joe Becherer. As you know, Mr. Joe Becherer is already well recognized for several Iris, one of his latest, Snow Goddess, winning a H. M. in 1956. A true credit to this great hybridizer.

MR. H. F. SCHAAAN

### 1957 INTRODUCTIONS

**CASTLEWOOD**—(Becherer '57) M. 36". (Sporting News x Zulu). There are many blacks and blue blacks advertised today. But to my estimation this is the smoothest variety to have been seen so far, not a mark of any kind on its make-up—even the beard is blue. Easy to grow and a fast increaser. **Net**.....\$15.00

**LOTOWANA**—(Becherer '57) M. L. 38". (Distance x Sporting News). A large flower of smokey blue with a distinct dark, almost black spot the size of a half dollar on the falls. Easy to grow and useful as a breeder both ways. Very attractive. **Net**.....\$15.00

**ZULU**—(Becherer '57) M. 36". (Sporting News x Pink Seedling). The pink seedling is from Spindrift x Fantasy, this Iris has a red undercast and is red black. Zulu is a very good breeder for deep black. There never was a better black breed than Castlewood, out of Zulu x Sporting News. Lots of pollen, also good podparent. You will not be disappointed in any of the 3 Iris mentioned in this article.  
**Net**.....\$10.00
